

Creative Solution, Endless Options

Stamped Patterns Create Beautiful, Durable Topping Possibilities

Systemex Stamp™ is a versatile polymer concrete deck system that is ideal for renovation or custom concrete decks. This quality Mortex product allows the contractor to create unique and beautiful stamped patterns on existing concrete decks and walkways. Systemex Stamp provides limitless color and pattern possibilities. From brick to rock patterns, this product allows for maximum creativity when a unique solution is required.

- Natural looking textures offer limitless range of decorative applications.
- Systemex Stamp can be used with a wide variety of stencils and color finishes.
- Has the durability to withstand high heat and freeze/thaw conditions.

SYSTEMEX™ stamp

Systemex Versatility

Mortex's unique polymer deck solution offers durability and allows for stamped patterns for decorative applications.

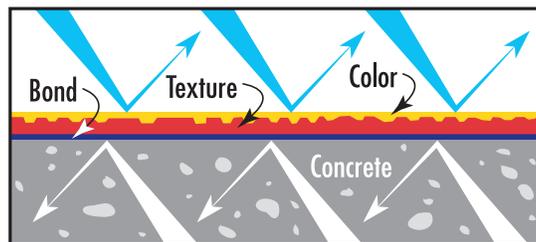

Systemx® Polymer Topping for Renovation

Systemx topping is also a perfect answer to the growing demand for concrete and pool deck renovation. With its ease of use, array of attractive colors and durability, Systemx provides a quick, easy and permanent fix for old, worn or deteriorated concrete.

For over 40 years, Mortex™ has been the contractor's choice for innovative and superior quality products. In 1962, Mortex revolutionized the swimming pool industry with the introduction of our Keystone Kool Deck product, that literally changed the face of swimming pool decks forever. Since then, Mortex has continued to set the industry standards for product innovation, quality and customer service.
